

## Pet-Friendly Design Demos

Our pets are our constant companions. That's why more home and business owners long to create spaces that are harmonious for both pets and people. From flooring to furniture, what design elements make canines and their humans feel comfortable in the spaces where they live, work, and play?

We asked a group of talented local designers and creators to set up spaces that combine elements for pets and people. Grab a cocktail and walk around to experience our participants' unique takes on "Designing with Your Dog in Mind."
